- Questions? Please email us after program.
- If you are having technical difficulties, type them in the chat room.
- Thank you for joining us!

Live Courses by the Experts
Level 2 – Diabetes Ed Course
- April 19-21, Portland Oregon
- Earn 18 CE’s – qualifies toward CDE

DiabetesEd.net
Prep For CDE Web Clinic
Complimentary "live" web clinic

- **Purchased version includes at DiabetesEd.net:**
  - 100 question computerized quiz
  - Listen as often as you like, when you like, from any computer
  - Print handouts

Topics

- Qualifications to take the exam
- Recent changes in exam format
- Exam content
- Study strategies
- Test taking tips
- Resources

Some Notes of Clarification

Diabetes Ed Services has no relationship with National Credentialing Board of Diabetes Educators (NCBDE).
For more info visit www.ncbde.org
Professional Qualifications to take CDE®- excerpted from NCBDE

- RN, clinical psychologist, OT, optometrist, pharmacist, PT, (M.D. or D.O.), or podiatrist w/ current license from U.S. or its territories.
- RD w/ CDR registration, PA w/ active registration with NCCPA, or exercise physiologist w/ active certification and Registered CEP® (master's degree).
- HCP w/ at least a master's degree in social work from accredited U.S. College

Why Take the CDE® Exam

- Demonstrates to people with diabetes, employers, and third party payers that the CDE® possesses distinct and specialized knowledge, thereby promoting quality of care for patients with diabetes.
- CDE® is the recognized standard for competence in diabetes self-management education.
- Given the diabetes epidemic, access to CDE®s is critical

2012 - Professional Practice Experience - Must meet all

- A minimum of two years (to the day) of professional practice experience in the discipline under which one is applying for certification
  AND
- Minimum of 1,000 hours of professional practice experience in diabetes self-management education with a minimum of 40% (400 hours = about 8 hrs a week) accrued in the most recent year preceding application. AND
- Minimum of 15 clock hours of continuing education activities applicable to diabetes within the 2 years prior to applying for certification.
**Professional Practice Experience - Defined**

- “Employment for compensation as a diabetes educator in the U.S. or its territories within past 4 years.”
- “Must hold a job in which one is engaged in diabetes self-management education and **paid comparably to** other diabetes educators in same region”.
- Only experience occurring **AFTER** completing your professional degree can be counted toward the Professional Practice Experience requirement.

**Get hours through Mentorship**

New Starting 2011

- 400 of the needed professional practice hours can be gained by completing a mentorship with NCBDE approved mentor.

**Mentee Eligibility Requirements for Volunteer DSME**

- Meet NCBDE discipline requirements in effect at the time of application
- Volunteer hrs must be accrued w/in 4 yrs immediately prior to CDE application
- DSME volunteer hours w/ NCBDE Mentor
- Maximum of 400 volunteer hours of the total 1000 hrs of DSME experience
- Hours provided in Accredited Program or program in compliance with national stds
Professional practice experiences NOT considered diabetes education

- diabetes related functions performed as part of or in the course of other routine occupational duties (e.g., routine nursing care, routine nutritional counseling, routine pharmacy practice)
- providing continuing education to professionals
- supervising and managing other professionals
- volunteer activities, including diabetes camp
- any experience in a student capacity
- membership and committee work in professional organizations

Not considered diabetes education experience cont’d

- providing medical assessment, diagnosis, or treatment
- conducting/participating in research activities
- dispensing/prescribing medications or diabetes supplies
- promoting or selling meds or diabetes supplies and products
- employment by manufacturers of diabetes products and/or product services (e.g., insulin delivery devices)
- having diabetes or caring for family member w/diabetes
- any work experience in practice settings outside the United States or its territories
- Work experience > 4 years prior to date of application

Diabetes Self Management Education (DSME)

- Ongoing process of facilitating knowledge, skill, and ability necessary for self-care.
- Incorporates needs, goals and life experiences and is guided by evidence-based standards.
- Goal is to support
  - informed decision-making,
  - self-care behaviors,
  - problem-solving and
  - active collaboration with health care team to improve clinical outcomes, health status, and quality of life.
What’s included in DSME?

1. Assessment and education plan developed by individual and educator(s) to direct
   - appropriate educational interventions and
   - self-management support strategies.
2. Educational interventions to help individual
   - achieve self-management goals.
3. Periodic evaluations to determine if goals met
4. A personalized follow-up plan for ongoing self management support.
5. Documentation

Applying to take the CDE® Exam

At the time of your online application you will receive:
- On-line notification of either approval
- Or that you have been selected for audit
- If you are submitting a paper application, call AMP if it has been more than 4 weeks since application was mailed and you have not received notice of receipt or audit. Call the AMP at (913) 895-4600

What is included in audit if requested?

- Licensure
- Documentation of Professional Practice Experience
- CE course verification
- Employment verification signed by supervisor
Test Now Computerized

- Window to apply for Spring testing
  - Jan 15 - March 15 - Take test in May - June
- Window to apply for Fall testing
  - July 15 - Sept 15 - Take test in Nov - Dec
- Once you receive confirmation of eligibility
  - schedule an appointment to take the examination on a first-come, first-served basis
  - at one of more than 170 AMP Assessment Centers throughout the U.S. and select international locations

Overview of CDE® Exam

- Composed of 200 multiple-choice, objective questions with a total testing time of four (4) hours.
- Based on a content outline developed from a job analysis completed in 2008, which surveyed diabetes educators about the tasks they performed.

Exam Details

- Questions are linked directly to a task or tasks.
- Each question is designed to test if the candidate possesses the knowledge necessary to perform the task or has the ability to apply it to a job situation.
- 25 of the 200 questions are new - but are not counted in the determination of individual examination scores.

Exam Content

- Assessment (45)
  - Learning/Self-Care Behaviors (15)
  - Medical, Psycho-Socioeconomic and Health Status (10)
  - Current Knowledge and Practices Related to Diabetes Care (20)

Exam Content

- Intervention (112)
  - Collaboration with Patient, Family, Caregiver, and Healthcare Team (14)
  - Teach/Counsel Regarding Principles of Diabetes Care (70)
  - Review, Evaluation, Revision, and Documentation (14)
  - Follow-up and Referral Recommendations (14)
Exam Content

- Program Development and Administration (18)
  - Diabetes Patient Education Program (8)
  - Evaluate Outcomes and Quality (6)
  - Promote Diabetes Advocacy (4)

- For detailed outline go to: http://www.ncbde.org/exam_outline.cfm

Scoring the Exam

- Reported as raw and scaled scores
  - Raw score: number of right answers
  - Scaled score: statistically derived from the raw score
  - Total score determines pass/fail and is reported as a scaled score ranging between 0 and 99
  - To pass: 70 scaled score units

When will I get my results

- You will receive your test results the same day
- You can retake the test as many times as needed
- Cost –
  - 1st time $350
  - Renewal - $250
TAKING THE TEST

Questions, Answers and Pitfalls

Reading too Fast

Pitfalls

- Choosing a “good” answer, but not the right one for the stem
  - key intent of question
- Failing to read an important words (always, never, most, probably, usually)
- Choosing an answer you did not understand because the others seem too easy

Empowerment

Errors

- Focusing on the medical need rather than the psychosocial needs
- Failing to keep in mind the patient’s characteristics (age, type of diabetes, etc.)
Thinking Pitfalls

- Imagining a right answer and getting thrown when it is not among the choices
- Over thinking question/answers
- Choosing an answer that did not fit the situation
- Being thrown by a technical term you did not know

Take a Practice Test – Learn how to “work” test questions

- Make sure you REALLY understand the question
- Find the stem
  - Identifies key intent of the question
- Read all the options or answers
- Eliminate obvious wrong answers
- Select BEST option

Look for Clues in The Answers

- If two answers are opposites or similar, one of them is probably correct
- Answers with the following words are usually incorrect: always, never, all, none, only, must, and completely
- Answers with the following words are usually correct: seldom, most, generally, tend to, probably, usually
Getting to the Right Answers

- Do not leave any answers blank
- Look for clues in the question
- Don’t get lured in by juicy answers
- Avoid imposing your life experience into the question/answer
- Keep breathing
- Even simple math problem should be worked out on scratch paper

Three Types of Questions

- Recall – facts, principles, procedures
- Application – ie – application of knowledge that varies based on pt characteristics
- Analysis – integration or synthesis of a variety of concepts or elements (ie evaluating complex problems with many variables)

Sample Question -1

Which of the following would suggest a diagnosis of new onset type 1 diabetes vs type 2 diabetes?
A. Hyperglycemia
B. Polyuria
C. Ketosis
D. Polydipsia
Sample Question 2

MJ has type 1 diabetes and wants to know the possible complications that can result from hyperglycemia during the first trimester of pregnancy. Which of the following complications can result from 1st trimester hyperglycemia?

A. macrosomia
B. vascular defects
C. shoulder dystocia
D. spina bifida

Vignette Style Question

Read the following vignette to answer the next 3 questions.

A 47 yr old man with newly diagnosed type 2 diabetes. Additional known information.
- Married, with 2 teenagers
- Professor, obese
- Started on Metformin 500mg BID
- Father died of kidney failure secondary to diabetes

Vignette Style Question 1

Given what you know about this patient, what emotions would you expect him to express?
A. Fear of hypoglycemia
B. Reluctance to start on insulin
C. Panic disorder
D. Fear of complications

analysis
Vignette Style Question 2

What is most likely to be a potential barrier to lifestyle change?
A. Difficulty exercising due to obesity
B. Excessive alcohol intake
C. Teenage children
D. Long work hours
Sample question 4

A person with type 2 is on a twice daily dose basal/bolus insulin and complains of waking up with morning headaches. If the fasting capillary BG is 291, this person should be advised to:

a. Increase evening dose of basal insulin
b. Increase morning dose of bolus insulin
c. Check 3am blood glucose
d. Eliminate bedtime snack

STUDYING

Confidence, Habits and Time

Study Habits

- Find your best time of day to study
- Determine your learning style
  - Auditory – discussion, study groups, tapes
  - Visual – books, handouts, notes, videos
  - Kinesthetic – workshops, demonstration
- Set up a study space
- Set up a study plan
  - Schedule your time
  - Make an appointment with yourself
Study Group

- Set a location, time and schedule
- Have an agenda
- Set the rules
  - Everyone does their share
  - Everyone commits to attend
- Can be a great source of moral support and can help decrease test anxiety

Study Time

- Review of what you know: 30 to 40%
- Learning new materials: 60 to 70%
- CDE prep courses, flash cards & sample tests
- Teach the content to someone else
- Use down time/waiting time productively

Knowledge = Confidence

- Most important aspect of test taking
- Knowing the content will improve your confidence
- As you study your knowledge base expands
Combating Test Anxiety

- Positive thinking and affirmations
- Use relaxation techniques we teach pts
- Take practice exam
- Rest well night before
- Know how to get to test site
- Arrive at exam room early
- Know your stuff – self-study or courses
